FROM

THE HON'BLE LIEUTENANT-COLONEL J. MANNERS SMITH, V.C.,
C.V.O., C.I.E.,
Chief Commissioner of Ajmer-Merwara,

TO

THE SECRETARY TO THE GOVERNMENT OF INDIA IN THE
FOREIGN AND POLITICAL DEPARTMENT.

Dated Mount Abu, the 29th December 1917.

SIR,

I have the honour to submit the Annual Administration Report of Ajmer-Merwara for the year 1916-17 compiled by the Commissioner, Mr. L. W. Reynolds, I.C.S., together with my predecessor's remarks thereon.

I have the honour to be,

SIR,

Your most obedient servant,

J. MANNERS SMITH,
Chief Commissioner of Ajmer-Merwara.

Remarks by the Hon'ble the Chief Commissioner, Ajmer-Merwara.

The year 1916-17 opened under most unfavourable agricultural conditions. The monsoon had failed in the preceding year, and it had been found necessary to declare Scarcity in the Merwara Sub-District in March, 1916. Prospects were generally depressing throughout the District, nearly all the tanks were empty and the Rabi harvest was in consequence extremely poor. By the month of June the number of relief works in Merwara had risen to ten and a failure of the approaching monsoon would have made the declaration of Famine inevitable. Fortunately abundant rain was received in July, and in the following months the monsoon was all that could be desired. The Scarcity works were all closed by the end of August: Ajmer-Merwara enjoyed an excellent Kharif and distress gave place to prosperity.

2. As a result of the favourable monsoon the total revenue (Imperial and Local) of Ajmer-Merwara rose to Rs. 17,80 057, an increase of nearly rupees three lakhs as compared with that of the preceding year. The expenditure incurred also shows a substantial increase amounting to Rs. 20,54,671 as against Rs. 15,22,656 in the year 1915-16: this is due to an outlay of some five lakhs of rupees in connexion with the relief of Scarcity.

3. Receipts from Excise rose by nearly Rs. 40,000, and provide a striking indication of the prevailing prosperity.

4. The Co-operative Credit movement has also been materially assisted by the monsoon. There is a considerable amount of debt still outstanding against the Societies, but recoveries to the extent of more than rupees five lakhs were effected during the year. In addition to this it is to be noted with satisfaction that the Co-operative Credit movement enabled cultivators to spend some three lakhs of rupees in discharging their outside liabilities and in the redemption of mortgages; and thereby to extinguish debts to the amount of Rs. 4,30,000.

5. With regard to the Ajmer Municipality, it is to be observed that the main difficulty with which the Committee have had to contend hitherto has been occasioned by the shortage of the water-supply. This difficulty has now been overcome, and the Committee are now faced with an entirely different problem, *viz.*, the question of surface-drainage. This will necessitate a large capital outlay which in the present period of financial stringency it is impossible to provide. But the Committee are giving the matter their consideration: it is hoped they will decide to devote what sums they can make available for the purpose of procuring expert advice on the subject, so that, when the financial situation clears, they may be ready to proceed to the best possible advantage.

6. Education has continued to make a steady advance. The number of pupils attending educational institutions in the District has increased considerably. Accommodation is to a certain extent deficient, but this is a disadvantage which cannot be expected to vanish until the War has come to an end.

E. G. COLVIN,

Chief Commissioner of Ajmer-Merwara.

4th November 1917.

REPORT

ON THE

ADMINISTRATION OF AJMER-MERWARA

FOR

1916-1917.

SECTION I.

GENERAL ADMINISTRATION.

1. The office of Commissioner, Ajmer-Merwara, was held by Mr. C. C. Personnel. Watson, C.I.E., I.C.S., from 1st April 1916 to 20th December 1916 and by Mr. L. W. Reynolds, C.I.E., I.C.S., from the 3rd January 1917 to the end of the year. During the intervening days, *viz.*, from the 21st December 1916 to 2nd January 1917 Mr. H. C. Greenfield, I.C.S., Assistant Commissioner, held charge of the office of Commissioner in addition to his own duties.

2. The office of Additional District and Sessions Judge was held throughout the year by Diwan Bahadur M. Damoder Lal and that of Assistant Commissioner, Ajmer-Merwara, by Mr. H. C. Greenfield, I.C.S.

3. M. Phul Chand, Extra Assistant Commissioner, Ajmer, remained on leave and M. Shanker Lal officiated as Extra Assistant Commissioner, Ajmer, throughout the year except from 2nd November 1916 to 17th December 1916 when he went on privilege leave and M. Bhagwati Lal acted as Extra Assistant Commissioner, Ajmer.

4. Rai Sahib Pandit Brijiwan Lal, B.A., continued to hold the appointment of Extra Assistant Commissioner, Merwara, and M. Maharaj Swarup that of Sub-Divisional Officer, Kekri, throughout the year.

5. Lieutenant-Colonel R. C. Macwatt, C.I.E., F.R.C.S., I.M.S., continued in the office of the Civil Surgeon throughout the year.

6. Mr. Hollins held charge of the office of District Superintendent of Police from 1st to 6th April 1916. He was then transferred to foreign service in the Tonk State and the office was temporarily held by Mr. Hogan, the Assistant Superintendent of Police, from the 7th to 12th April 1916. Mr. Mayers held the office of District Superintendent of Police from the 13th April to the end of the year.

7. The total revenue (Imperial and Local) of Ajmer-Merwara for the year amounted to Rs. 17,80,057 as compared with Rs. 15,08,790 last year and the total expenditure was Rs. 20,59,127 as against Rs. 15,22,656. Revenue and expenditure (vide statement No. 42).

8. Imperial revenues rose from Rs. 9,92,634 in the year 1915-16 to Rs. 11,60,971 in the year under report and expenditure from Rs. 10,15,572 to Rs. 14,95,973.

9. There was a deficit of Rs. 3,35,002 in the Imperial revenue in 1916-17 as compared with a deficit of Rs. 22,938 in the preceding year.

10. The deficit was principally due to variations in the revenue and expenditure under the following heads:—

<i>Receipts.</i>					Rs.
1. Land Revenue	+ 30,166
2. Stamps	+ 20,446
3. Excise	+ 38,348
4. Assessed Taxes	+ 56,278

Expenditure.

1. Police	+14,853
2. Superannuation, etc.	—13,403
3. Famine relief	+4,87,535

11. The increase in receipts under the head "Land revenue" was due to the recovery of a large amount of arrears in the year 1916-17 owing to the kharif harvest of 1324 Fasli being good.

12. The increase in the receipts under head "Stamps" was due to increased civil litigation during the year consequent on the favourable kharif harvest.

13. To the latter cause is also to be attributed an increased consumption of liquor resulting in enhanced revenue under the head "Excise."

14. The increase in receipts under the head "Assessed Taxes" was due to the increase in the rates under the Income Tax Act 1886 as amended by Act V of 1916.

15. The increase in expenditure under the head "Police" was due to a rise in the pay of constables and to the payment of enlistment gratuity allowances with effect from the 1st October 1916.

16. The decrease in the expenditure under head "Superannuation" was due partly to the death of pensioners and partly to the transfer of the pension payments from this Treasury and other Treasuries.

17. The increase in expenditure under head "Famine Relief" was due to (1) the payment to the railways of the cost of special concession rates on fodder, (2) the distribution of gratuitous relief and (3) the opening of relief works during the year under report.

Criminal Tribes. 53. There is no Salvation Army Settlement in the district. A hundred Baoris have already been registered and proposals are under consideration for proclaiming and registering gypsies.

Surveillance. 54. The number of persons dealt with under the bad livelihood sections of the Criminal Procedure Code was 42 against 64 in 1915. The average security demanded was 216 under section 110 and the average term of imprisonment

was one year. Under section 55-109 the average term of imprisonment failing security was 6 months and 27 days. Six of the seven cases under sections 110 and 29 of the 35 cases under section 109 were successful and in only one case was security furnished.

55. The number of persons on history sheets was 347 at the end of 1915 and had fallen to 329 by the end of 1916, but the number of persons whose names were entered in the surveillance register rose from 96 to 106. Thirty-five of the persons whose history sheets were maintained were reconvicted and imprisoned during the year.

56. There were 65 names on the register of absconded offenders at the beginning of the year and 39 were added during the year; 14 were arrested and three were struck off under the rules, leaving 87 names on the register at the close of the year.

57. The total allocation is now 40 officers and 915 men; the number of constables was increased by three during the year to provide order writers. The actual strength at the close of the year was 39 officers and 842 men. The number of vacancies at the close of the year was 74 as compared with 31 at the beginning. Recruitment, owing to the pressing needs of the army, is daily becoming more difficult. The enhanced rates of pay sanctioned towards the end of the year have had no effect on recruiting but the number of resignations has decreased.

58. Nine men were punished judicially as compared with five in 1915. Departmental punishments numbered 16 as compared with 14 in 1915. Three hundred and seventy men earned Rs. 3,717 in rewards during the year; the amount received from the Police budget in gambling cases was rupees 1,136. One hundred and twenty-two men received Rs. 757 from the budget for meritorious services.

59. Six men were transferred to the armed branch from the mounted branch during the year to act as bicycle orderlies. The strength of the force is now 2 head-constables and 29 constables. Proposals are under consideration to replace a certain number of horses by camels. A new system for the training of the men in armed police duties is also being introduced.

60. The training and education of the force has been much interfered with by the force being so much below strength.

61. The force is much below the strength laid down and is under paid and inefficient. Proposals for increasing both the pay and the strength have been long under consideration and have now passed the initial stages.

(3) CIVIL JUSTICE (YEAR ENDING THE 31ST DECEMBER 1916).

74. The total number of courts during the year was 33.

75. The total number of suits (including miscellaneous) was 9,854 against 9,002 in the year 1915, showing an increase of 852. The increase is attributable to favourable harvests.

76. The total value of Suits instituted this year was Rs. 10,97,916 as against Rs. 7,79,706.

77. Suits of all kinds the value of which did not exceed Rs. 50 numbered 4,504.

78. The total number of Suits of all kinds for disposal including arrears was 11,971. The contested Suits disposed of numbered 1,280; (56 were decided by arbitration and 6,005 without any contest. The number disposed of without trial was 2,783 and 22 Suits were transferred to other courts. The pending file at the close of the year was 1,825 as compared with 1,033 in the preceding year; of the former 413 had been pending for more than three months.

81A. The total number of appeals and miscellaneous civil applications dealt with by the Chief Commissioner was 384. Details are given in statement No. 10A (civil).

Appeals.

(4) REGISTRATION (YEAR ENDING THE 31ST DECEMBER 1916).

82. There was no change in the number of offices throughout the year. An extra Moharrir was entertained in the Ajmer Sub-Registry office during the year, and the additional expenditure met by a reduction of the allowance to the Moharrirs of Kekri and Todgarh.

83. The total number of documents of all classes presented for registration during the year under report was 2,523 against 2,772 in the preceding year. The decrease appears to be due to the fact that the rains were good following a series of bad years. There was thus less recourse to the money-lender in agricultural tracts.

84. Of the total number of documents presented for registration, 1,756 documents or 69.60 per cent. were registered in the Ajmer Sub-Registry office as against 68.21 and 61.21 in the two preceding years.

85. The area of agricultural land transferred by sale and mortgage during the year was 512 and 2,128 bighas respectively as compared with 2,269 and 4,277

No. 26.*

highas in 1915, the decrease being due, as has already been noted, to the good kharif harvest and consequent ability of agriculturists to finance themselves. Some of the decrease may be due to the place of the village money-lender being taken by the Co-operative Credit Societies, but to what extent cannot be ascertained accurately.

86. The total value of agricultural land sold and mortgaged amounted to Rs. 1,26,971 as against Rs. 1,11,515 in 1915. The increase is mainly due to the value of land sold in Ajmer for building purposes.

87. The total receipts and expenditure of the year amounted to Rs. 5,780-13-0 and Rs. 1,243-9-9 respectively as compared with Rs. 6,218-10-11 and Rs. 2,168-11-10 respectively in 1915. The decrease in fees is due to the decrease in the number of documents registered, whilst that in expenditure is due to the fact that the extraordinary expenditure noted in last year's report was not repeated during the year under report.

88. All the offices of the Sub-Registrars except Ajmer and Todgarh were inspected once each by the Registrar during the year under report.

89. The work in all offices has shown steady improvement, but Ajmer and Nasirabad are considerably in advance of others. This is to be attributed partly to the personal influence of the Sub-Registrars concerned and partly to the fact that in the offices of Kekri, Beawar and Todgarh the offices are in charge of touring officers who are not always able to exercise the necessary supervision over the registration work.

(5) MUNICIPALITIES (YEAR ENDING THE 31ST MARCH 1917).

*Vide Statements
Nos. 27 to 30.
Ajmer Municipality—population 86,273.*

90. During the year under report, the constitution of the Ajmer Municipal Committee remained unchanged. The Committee was composed of 23 members—6 nominated and 17 elected—and contained 8 Europeans and 15 Indians.

91. During the year 5 special and 21 ordinary meetings were held, the average attendance at each meeting being 15.25 and 12.90 respectively.

92. The total income of the year was Rs. 3,50,456 as against Rs. 2,87,557 in 1915-16. The expenditure amounted to Rs. 3,36,035 as against Rs. 3,21,253 in the previous year. The closing balance was Rs. 22,904.

93. If refunds are excluded, which amounted to Rs. 38,105 in 1915-16 and Rs. 43,233 in 1916-17, the figures for the two years compare as below :—

	1915-16.	1916-17.	Difference.
	Rs.	Rs.	Rs.
Income . . .	2,49,452	3,07,228	+ 57,771
Expenditure . . .	2,83,148	2,92,802	9,654

94. The increase of receipts is not due to any expansion of revenue but mainly to the receipt of a loan of Rs. 40,000 taken from Government for the purpose of defraying extra expenditure incurred on the Bhaonta Water supply scheme and to the fact that a total contribution of Rs. 15,000 was received from the Bombay, Baroda and Central India Railway Company as against Rs. 7,500 in the preceding year. The financial condition of the Municipality may be gauged from the fact that without these items of receipt the Municipality would have been faced with a deficit.

95. The gross and net receipts from octroi in the two years are shown below :—

	Gross.	Net.
	Rs.	Rs.
1915-16	1,90,359	1,52,254
1916-17	1,94,679	1,51,446
Difference	+ 4,320	— 808

96. The increase of Rs. 4,320 in gross receipts has occurred chiefly under the items "piece goods—viz., cloth, etc.," "Metals" and "sugar."

97. The increase in expenditure occurs chiefly under the heads "water supply" and "Conservancy" and is due under the former head to the payment of the extra expenditure incurred in connection with the Bhaonta Water supply scheme and under the latter head to the acquisition of a well and land at the Municipal trenching ground and to the purchase of conservancy plant.

98. The main variations occurred under the following heads:—

Heads.	Increase. Decrease.	
	Rs.	Rs.
Refunds	5,128	...
Water supply	6,740	...
Conservancy	10,957	...
Hospitals and dispensaries	1,999
Roads	9,200
Public instruction	2,934	...
Interest on loans	6,833
Other items	4,299	...

99. The increase under the head "refunds" was due to larger export of cloth.

100. The decrease under the head "Hospitals and dispensaries" is due to no payment having been made during the year on account of maintenance of lunatics at Lahore in consequence of the adjustment of the sum due against an excess payment made in the previous year.

101. The decrease under the head "roads" is accounted for by the fact that no extraordinary repairs or renewals were taken in hand during the year.

102. The increase under the head "Public Instruction" is attributable to the payment of liabilities incurred in the preceding year which were left unliquidated.

103. The balance of the loan of Rs. 60,000 taken from Government in 1910 for renewing the conservancy rolling stock was paid up during the year. Consequently there was a decrease under the head "interest on loans."

104. Expenditure in connection with His Excellency the Viceroy's visit to Ajmer in November 1916 and the general Municipal elections resulted in an increase under the head "other items."

105. A sum of Rs. 25,711 was paid during the year towards the liquidation of Government loans, the balance of which due by the Municipality at the end of the year amounted to Rs. 5,48,181.

106. The incidence of taxation was Rs. 1-12-1 per head of the population against Rs. 1-12-2 in the preceding year.

107. The management of the Ajmer Water Works remained in the hands of the Executive Engineer, Public Works Department, Ajmer Division.

108. The total rainfall registered during the year at the following places is as given below:—

1. Foy Sagar	30.20
2. Municipal water works godown	28.32
3. Catchment area of the Foy Sagar	22.00
4. Bhaonta water works	26.45

109. At the Foy Sagar and Budha Pushkar lakes the water levels were respectively 7.62 and 7.65 at the commencement and 17.86 and 7.6½ at the close of the year. The water level of the Bhaonta well No. 5 on the 1st April 1916 was 87.34 while on the 31st March 1917 it was 91.92.

110. Water was pumped from the Foy Sagar on different dates throughout the whole year except during the month of August 1916.

111. From Bhaonta, water was pumped from the 1st May 1916 to the 10th September 1916 and again from the 13th September 1916 to the 26th September 1916, and from Budha Pushkar only during the month of April 1916.

112. The Committee's proposals for the revision of the Ajmer Municipalities Regulation V of 1886 and for the substitution of terminal taxation for the present octroi tax are receiving consideration.

113. The scheme for lighting a portion of the city and suburbs with electricity has been approved by the Committee and an agreement will shortly be executed, but the installation will not be commenced till after the termination of the war.

114. The number of births recorded was 2,670 and of deaths 4,673 as against 2,648 and 3,085 in the previous year.

115. The birth and death rates per mille of population were 30.96 and 51.88 against 30.71 and 35.78 respectively in the preceding year.

116. The mortality among children under five years of age was 2,515 (53.69 per cent. of the total mortality) against 1,624 in the previous year.

117. Thirty-three deaths from cholera, 129 from small-pox and 295 from plague were reported.

118. The number of inoculations performed during the year was 2,621.

119. The total number of vaccinations performed in the Ajmer town and suburbs was 6,675 against 4,658 in the previous year.

120. Although additions have been made to the conservancy plant, the state of sanitation in the city leaves much to be desired. The number of public latrines and urinals is still insufficient for the requirements of the city. No considerable improvement can be effected until the Committee are in a position to carry out a scientific scheme of surface drainage. In their attempts to improve the conservancy the Committee do not receive the assistance from the citizens of Ajmer which they have a right to expect. It is hoped that the wider powers which will be given to the Committee under the amended Regulation will enable the Municipality to deal more effectively with the resistance to sanitary reform which is now encountered. The main difficulty, however, is want of funds, and it is imperative that taxation to meet the cost of special services such as conservancy and water supply should be introduced without further delay.

121. It is regrettable that in connection with the outbreak of plague during the year certain members of the Committee failed in their public duties and were content to leave to others work which the public have a right to expect them, as their representatives, to perform. There is no prospect of any real progress in Municipal administration in Ajmer until the Municipal Commissioners as a whole realize that membership of the Committee is a privilege which carries with it obligations and must be used not to further individual and party interests but for the public good.

122. The Municipal accounts were test-audited by the Examiner, Local Fund Accounts, United Provinces, during the year.

123. The Committee held 12 special and 9 ordinary meetings.

124. The total income of the year amounted to Rs. 1,05,411, exceeding that of the previous year by Rs. 27,646 and the expenditure to Rs. 95,783 as against Rs. 91,466. The closing balance was Rs. 16,391 exclusive of Rs. 21,000 invested in Government Securities.

125. The increase in receipts accrued mainly under the head "Octroi" and was due largely to the activity of the cotton trade consequent on a favourable monsoon and a rising market.

126. The amount paid on refunds was roughly less by Rs. 4,700 than in the preceding year.

127. The incidence of octroi taxation per head of population was Rs. 3-4-1 as against Rs. 1-12-6 in the year 1915-16.

Beawar Municipality Population 22,800.

128. If a sum of Rs. 11,000 invested in the War Loan be excluded the net expenditure shows a decrease of Rs. 6,683 due to the exercise of rigid economy. Owing to the scarcity of water at the beginning of the year a new well No. 4 was sunk in the bed of the Jalia tank. The water difficulty was, however, subsequently removed by an abundant rainfall. In the course of the year water was supplied to the town to the extent of 1.35 gallons per head of population at a cost of Rs. 9,800.

129. Owing to lack of funds no further extension of the pipe line could be made.

130. The state of the roads in the Municipality is not satisfactory and provision for their improvement is being made in the budget for the ensuing year.

131. The numbers of births and deaths registered during the year were respectively 1,035 and 1,062 as against 1,121 and 1,018 in 1915-16.

132. The accounts for the year 1915-16 were audited by the Local Fund Audit Department of the United Provinces during the year.

133. There has been no change in the constitution of the Committee except the appointment of Dr. Bijai Narain, in place of Dr. Geta Ram.

134. The Committee held 4 ordinary and 8 special meetings during the year.

135. The total income and expenditure amounted to Rs. 21,408-0-6 and Rs. 18,957-0-4 as against Rs. 15,785-9-3 and Rs. 11,805-6-1 respectively in the preceding year.

136. The increase in receipts was mainly under the head "Octroi."

137. The increase in expenditure was due to enhanced expenditure under the heads (1) Collection of taxes, (2) Conservancy, (3) Hospital, (4) Garden and agriculture, (5) Public works (buildings and roads) and (6) Public instruction.

138. The incidence of Octroi taxation per head of population was Rs. 3-0-1 $\frac{3}{4}$ as against Rs. 2-1-9 $\frac{1}{4}$ in the year 1915-16.

139. The number of births and deaths recorded during the year was 176 and 374 against 180 and 179 respectively in the preceding year.

140. The accounts of the Municipality were checked by the Auditor of the Local Funds Accounts, United Provinces, Allahabad, from the 31st January to 3rd February 1917.

141. The balance at the credit of the Municipality at the close of the year was Rs. 23,407-2-4 (excluding promissory notes to the value of Rs. 2,000 which is in deposit with the Controller of Currency, Calcutta) against Rs. 22,956-2-2 in the preceding year.

(6) MEDICAL (YEAR ENDING THE 31ST DECEMBER 1916).

142. The number of dispensaries, *viz.*, six remained unchanged. The total number of in-door and out-door patients treated at these dispensaries during the year under report was 74,947 against 74,084 in the preceding year. There were 4,681 Surgical Operations of all kinds of which 1,878 were performed at the Victoria Hospital, Ajmer. The total income of the Ajmer-Merwara dispensaries was Rs. 23,068 and the total expenditure Rs. 22,723 against Rs. 20,596 and Rs. 19,438 respectively in the year 1915.

Tahsil.	STANDARD.			ASSESSMENT FOR 1916-17.			Revenue of crop-rate and Agor credited to Public Works Department.	GRAND TOTAL.

* Includes Rs. 1,034 on account of balance of previous years.

215. The gross receipts from Excise, opium and drugs amounted to Rs. 3,37,021 as compared with Rs. 2,98,673 in the preceding year. 221. The demand for tari is small and shows at present no sign of increasing. The beverage has not proved popular except in a small area in the hot weather.

Foreign liquor.

222. The number of licenses issued for the sale of foreign liquor was 19 as against 18 in the preceding year. The license fees for the wholesale and retail vend of foreign spirits and foreign fermented liquor amounted to Rs. 2,112 as against Rs. 2,241 in the preceding year. Opium.

223. The receipts under opium amounted to Rs. 25,250 against Rs. 29,070 in the previous year. The decrease of Rs. 3,368 is due to the rise in the price of Kotah opium which resulted in lower bidding at the auction of opium shops.

In addition to local smugglers, two members of a large gang of Peshawaris which had made Ajmer its headquarters were caught and a case was successfully brought against one of the Delhi smugglers.

231. Despite the vigilance of the Excise authorities, however, the profits of smuggling are so great that the complete eradication of this illicit trade is out of the question. The place of Germany as a supplier has been taken by Japan, but the cocaine is of inferior quality and the imitation of German trade marks easily detected.

234. The increase of R23,582 in the sale of judicial stamps is due to the institution of a larger number of suits this year. The decrease in non-judicial stamps chiefly occurs under the head "Impressed stamps" which is due to a depression in monetary transactions.

235. No prosecution took place for any breach of the stamp law.

236. The number of stamp-vendors during the year was 27 as against 32 in the preceding year. The discount paid to them amounted to R2,732 as against R2,719 in 1915-16.

243. The number of objections under section 25 of the Act was 79 ; of these 8 were allowed, 24 were partly accepted, 45 rejected including the 3 cases in which the tax was enhanced, and 2 were pending at the close of the year.

249. The receipts increased by Rs. 7,794 while the expenditure decreased by Rs. 12,913.

250. The increase in receipts is mainly due to (i) recovery of arrears of cesses, and (ii) realisation of capitation tax on the sale of animals at the Pushkar Fair which was not recovered during 1915-16 owing to the abandonment of the fair on account of scarcity of fodder and water.

251. The decrease in expenditure is mainly accounted for by the fact that in 1915-16 a larger amount was spent on special repairs to roads.

252. The Veterinary Dispensary and Shoeing forge at Ajmer continued to work satisfactorily.

253. The closing balance of the District Fund on the 31st March 1917 stood at Rs. 46,045 as compared with Rs. 42,762 on the same date in 1915-16.

265. The expenditure came to Rs. 2,648-15-4 as against Rs. 2,353 in 1915-16. The increase of Rs. 295-15-4 was due to the purchase of 3 remounts in 1916-17 as against one in the preceding year.

* The percentages required for 2 (a), 2 (b), 2 (c) are to be calculated from the figures given in columns 7a, 7b, 7c, respectively of General Table IV.
† The annual cost is calculated on the direct expenditure only. The average cost of educating each pupil is obtained by dividing the direct expenditure by the average number on the rolls monthly during the year.
‡ The average cost of each pupil in Local Fund and Municipal Schools is to be obtained from the figures given in General Table VII.
§ Fractions of a rupee should be omitted, except in the columns showing the average annual cost of educating each pupil.

N.B.—The headings prescribed by the Government, and not required for this district, have been omitted.
